

Product Release

1:10 SCALE BRUSHLESS 4WD RANGE

The New Strada Red Brushless Range!

The new Strada Red range of brushless-powered 1/10th scale cars, trucks and buggies is ready to give you fun and excitement! The Strada Red vehicles feature upgrade that make RC time even more enjoyable than before, with extra speed, power and acceleration across the range. From the XB buggy to the DT desert truck, Strada Red owners are in for hours of enjoyment!

The Strada Red line-up of cars and trucks all feature a brushless electronics group that includes the powerful MM-22BL 3215KV brushless motor, which is fitted with a black laser-etched case and 4mm gold-plated plugs, plus the strong MSC-30BL-WP brushless waterproof ESC. With brushless power on the trigger, you can go faster than ever before at the wheel of a Maverick Strada Red!

Each Strada Red vehicle features a molded tub chassis that provides durability and a stable and tough platform for a strong 4WD shaft drivetrain. Pre-built oil-filled shock absorbers and dual-wishbone independent suspension front and rear, give you supreme confidence on all driving surfaces. The MS-22 servo controls the steering through a dual-point steering system that features an integrated servo saver to protect the servo against crash damage.

The Strada 4WD drivetrain uses ball bearings throughout to give drivers maximum runtime and efficiency, and features a molded gear cover to keep dirt and debris away from the gears. Front and rear gear differentials easily transfer the motor's power to the pre-mounted tires at all four corners.

Every Strada Red vehicle includes a long-lasting 3000mAh nickel-metal hydride (NiMH) battery for long runtimes and ease of use, plus a convenient universal wall charger. All that's needed are 4 AA batteries for the 2.4GHz transmitter and you're off to the races!

The Maverick Strada range of brushed and brushless kits are ready to take over!

FEATURES

- Fully assembled 1/10th scale 4WD vehicles complete with radio, battery and charger
 - MM-22BL 3215KV Brushless Motor
 - MSC-30BL-WP Waterproof Brushless Speed Controller
 - MTX-243 2.4Ghz 2Ch transmitter & MRX-23 Waterproof Receiver w/ built-in Failsafe
 - MS-22 Steering Servo
 - Fully independent double A-arm wishbone suspension
 - Tough C-hub front steering knuckles
 - Tough, efficient 4WD drivetrain & front and rear gear differentials
 - Fully ball bearing supported drive train
 - Factory-finished, pre-painted and decaled bodyshells
- #MV12621 Strada Red XB 1/10 RTR Brushless Electric Buggy**
- #MV12622 Strada Red XT 1/10 RTR Brushless Electric Truggy**
- #MV12623 Strada Red MT 1/10 RTR Brushless Electric Monster**
- #MV12624 Strada Red TC 1/10 RTR Brushless Electric Touring**
- #MV12625 Strada Red SC 1/10 RTR Brushless Electric Short Course**
- #MV12626 Strada Red DC 1/10 RTR Brushless Electric Drift Car**
- #MV12627 Strada Red RX 1/10 RTR Brushless Electric Rally Car**
- #MV12628 Strada Red DT 1/10 RTR Brushless Electric Desert Truck**
